

## Model Development Phase Template

Date	03 july 2024
Team ID	739936
Project Title	Customer Shopping Segmentation by using Machine Learning
Maximum Marks	4 Marks

### Initial Model Training Code, Model Validation and Evaluation Report

The initial model training code will be showcased in the future through a screenshot. The model validation and evaluation report will include model training, accuracy presented through respective screenshots.

### Initial Model Training Code:

```

# importing and building Knearest neighbor
from sklearn.neighbors import KNeighborsClassifier
from sklearn.metrics import accuracy_score
knn=KNeighborsClassifier()
knn.fit(X_train,y_train)
knn_pred=knn.predict(X_test)
accuracy=accuracy_score(y_test,y_pred)
accuracy

[278] Python
